EIGHT PAGES.

BALTO. & OHIO GETS OUT INJUNCTION AGAINST STRIKERS.

Papers Were Served on the Men Here Yesterday, Nearly a Dozen Being Affected.

SOME ARE VERY INDIGNANT

Claim That They Have Committed No Acts to Warrant Such a Move on the Part of the Company and Say It Was for Revenge.

The long expected injunction against the Baltimore & Ohio's strikers which has been issued by the United States Circuit Court of Pittsburgh and yesterday papers were served on nearly a dozen of the strikers here.

Not a few of the strikers were indignant over the action of the railroad in securing the temporary injunction and did not hesitate to express their feelings in plain words.

"It looks to me like a deliberate attempt to make us lose the jobs we have secured after a lot of hard work," said one. "Now I am employed by a firm that doesn't like strikes any too well. What will the bosses there think when they learn I have been served with a subpoena and am under an injunction?"

"I haven't taken part in any disorder; haven't been out with the strikers at any time. Yet here comes an injunction which tells me that I must stop doing something I never did, and never had any intention of doing."

The injunction restrains the defendants from interfering in any way with the Baltimore & Ohio railroad, its employees or its property. They are restrained from molesting employees, and must not congregate in the streets or thoroughfares leading to and from the railroad company's property. The case will be argued in Pittsburgh on August 30.

The strikers declare that they have not committed a single overt act since the strike was declared and claim there was no cause for the injunction.

"We have the railroad company beaten to a frazzle and they know it," declared one striker. "They have a gang of alleged mechanists at work who are so incompetent that they can't get engines on the whole division. Of course the company is trying to get square with us for the trouble we have made them."

"This injunction doesn't worry me one bit. I am getting more money now than I did when I worked for the railroad, and it is steady work, too. Don't have to worry about the appropriation now. Up there we never knew when we would be cut to half time or laid off altogether. No more B. & O. for me."

The railroad claims the strikers have been interfering with its work by using various methods to induce desertions in the ranks. The company also says that several attacks on strikebreakers have not always been made by "sympathizers," but by the strikers themselves. This the strikers forcibly deny. They claim that they have at all times counseled against violence, but defend their right to induce men to leave the company if they desire.

COLD WAVE MAKES HUMANITY SHIVER

Drifted In After the Storm Yesterday and Is Not Given a Hearty Greeting.

Br-r-r-r. That's the way the town woke up this morning; all shiver. Last night broke all records for August weather, as the mercury almost struck out of sight. There were reports of frost, but these could not be confirmed. It was cold enough for a heavy frost, and then some. Extra coverings were in demand over night, for it began to get cold early yesterday.

The mercury dropped to 50 this morning, which is unusually low for this month. This was at 8 o'clock, and before daybreak it was much colder than that. The weather caused heavy fogs to rise from the river and creek bottoms and railroad tracks was dangerous business. Between Scottsdale and Greensburg street car men say that it was impossible to see more than a few feet ahead at any time on the first run.

Yesterday's storm did considerable damage all over the county. Through here the telephone companies suffered, several cables being put out of commission for a time. The storm was severe in Pittsburgh.

The rain caused the river to rise several inches over night, the record this morning being 4.8 feet.

Cold on the Cars.

The chilly autumn morning made a cold breeze through the open cars today.

DRIVER KILLED.

Old Army Musket Goes Off Unexpectedly at Latrobe.

LATROBE, Aug. 21.—An old army musket, which with other relics had hung for years on the wall of the living room at the summer home of the St. Vincent's archbishop, near Latrobe, caused the death of Frank Schneider, 29 years old, employed as a driver at St. Vincent's. Last Wednesday afternoon he began cleaning the old weapon.

He discovered it was loaded and was holding it with the butt resting against his stomach while he examined the trigger, when in some manner it was discharged. The recoil was so strong that internal hemorrhage resulted and he died last night.

LOSS OF JOB BASIS OF LAWSUIT

Interesting Case Arises Out of Discharge of Brewing Agent at Fairchance.

FAIRCHANCE, Aug. 21.—A case involving several peculiar features as well as fine points of law, came up before Squire Alex. Montoth yesterday and after a spirited hearing lasting for several hours the defendants were held for court in \$500 bail each.

Rosario Visconti was the agent of the Pittsburgh Brewing Company at Dunbar and vicinity. The agents of the four other breweries, it is stated, complained that he was underselling them on half barrels and quarters, and to prove this, it is asserted, had several customers of Visconti's make affidavits to these out prices before Squire Cameron of Dunbar. It was alleged that such underselling was in violation of an agreement existing between all the breweries in the county.

The complaining agents, it is asserted, carried their case to Superintendent J. D. Madigan of the Pittsburgh brewery at Conneltsville, in consequence of which Visconti was discharged. Visconti thereupon brought suit against them, charging conspiracy.

The names of the defendants are: Andy Busella, agent for the Johnson brewery; Luis Martinelli, for the Lator; Tony Yakubov for the Mason town, and Tony Caribulla, for the Yough. Attorney D. W. McDonald represents the prosecutor and Attorney L. B. Brownfield the defendants.

It is the contention of the prosecutor that the defendants conspired to procure his discharge. The defense side is that they merely complained to the superintendent of the Pittsburgh brewery that its agent was violating its agreement.

There is no statute covering such a case, the procedure being taken under the common law. The questions which arise are: Does the action of the defendants, even if made in concert, constitute conspiracy within the meaning of the law? If so, to what extent would it offend against the commonwealth in such a manner as to merit punishment? What is the measure of punishment?

It has been held that it is conspiracy for a number of individuals to do an unlawful act or to perform a lawful act in an unlawful manner. When the case comes up for trial it will be considered of interest not alone to all those affected by selling agreements but to many lawyers who are at sea as to what constitutes conspiracy in a criminal sense.

COMPANY SAYS THERE IS NO LIMESTONE

Files Answer to the Suit of James B. Thompson of Menallen Township.

UNIONTOWN, Aug. 21.—The Monongahela railroad has filed its answer to the suit of James B. Thompson of Menallen township who wants \$250,000 damages which he claims to have sustained by the railroad running its right of way for a distance of one mile across his property and practically cutting the farm in two. Thompson claimed that the farm is underlain with a rich deposit of limestone which he cannot develop because of the railroad.

The company, in its answer, denies that there is any limestone of such wealth beneath the farm. Aside from admitting that it is building a railroad across the Thompson farm the defendants deny all of Thompson's claims to it.

The Peaky Files.

The cold night made all the files stiff this morning.

A CEREAL BREAK.

WEST NEWTON, Aug. 21.—The Henry McLaughlin farm in Restravor township has produced this year a corn growth that is something of a monstrosity. The other day Mr. McLaughlin brought to town the product of a stalk of corn which resembled a cluster of bananas, each separate growth representing an undivided ear of corn. In the cluster there were ten or twelve such growths, the whole being covered with a luxuriant growth of silk. A notable thing is the fact that not a sign of a husk was to be seen. It is well to add here that not all of Mr. McLaughlin's corn crop is of this freakish nature, for Henry is a model farmer.

EXTENSIONS TO TROLLEY SYSTEM.

West Penn it is Said is Planning to Enter West Newton.

WILL SEEK A FRANCHISE

The Extension Will Be From Scott Haven Into the Town, Passing Through a Rapidly Developing Territory.

If all plans now in the minds of electric railway promoters or formulated on paper, materialize, West Newton will not long be without the advantages of trolley connections.

The West Penn company is seriously considering the extension of its lines to that place, first from Hunter Station via Yukon and Osborne, the new Sewickley township mining towns, and afterwards from Scott Haven, the present terminus of the Yough branch.

In an interview with a representative of the company, it was stated that the town would be asked for the rights of way over certain streets of the borough, and that if a fair franchise were granted the extensions referred to above would be made. Asked regarding bond for completion of the line and time required for building, it was stated that the company, as is their custom, was ready to provide sufficient bond, and complete the line in one year after starting work.

Recognizing the strength of the West Penn company, and admitting that West Newton is within the natural limits of their lines, the sentiment prevails there that Council will grant what they ask for within reason.

Another trolley extension which seems probable within the very near future is that of the lines of the Irwin & Hermiston Traction Company. It has been given out that this company desires to enter West Newton, and with this end in view have issued bonds to the amount of \$10,000 for starting the work.

The company has its lines completed from Irwin to Hermiston, and in less than sixty days will have cars running between the two points. The company is amply capitalized, the stock being owned by citizens of Hermiston, Irwin, Sewickley and East Huntingdon townships.

With \$2,000,000 at hand for extensions, the Pittsburgh, McKeesport & Westmoreland Street Railway Company awaits only the granting of a few small rights of way before starting work on a bolt line that will include Irwin, McKeesport, Monongahela valley towns as far up the river as Monessen, across the country to West Newton and into Irwin. The project includes the erection of two costly bridges, the contract for one of which at Irwin has been let to the Pennsylvania Steel Company. This bridge will cost \$30,000.

One of the matters to be decided concerns the route from Glassport. On which side of the river to lay tracks is being discussed and a decision seems probable. The road, Manning Stiles, president of the company, says will pass 50 towns with an aggregate population of 140,000 and will cover 55 miles.

Officers of the company are: Manning Stiles, President; I. I. Robertson, of West Newton, Vice President; Geo. D. Cook of New York, Treasurer; C. C. Loder of McKeesport, Treasurer.

TAKES AN APPEAL.

Foreigner Does Not Like Decision of Fayette City Magistrate.

UNIONTOWN, Aug. 21.—Squire Frank Vanelek of Fayette City is under fire, Mike Seck filing an appeal from the Squire's decision finding him \$5 and costs for malicious trespass.

The decision was rendered according to the spirit, under an act of May 30, 1890. Petruska, through his lawyers, denies the existence of such an act.

Spiritualism Again.

West Newton is again becoming excited over Spiritualism.

SHOOTING IN THE SOLID DISCUSSED.

Operators and State Inspectors Assemble in Conference in Uniontown.

RODERICK'S RECENT ORDER UP

Superintendent Clingerman Representing the Frick Company Says They Demand of Their Men the Strictest Observance of Laws.

As was foretold the announcement of Chief James B. Roderick of the Department of Mines of the State of Pennsylvania, that an agreement between the State and some of the inspectors and operators that "shooting from the solid" should be permitted under reasonable regulations, was at an end, there was a meeting of State and mining interests at the Court House in Uniontown late yesterday afternoon, at which between 25 and 30 coal and coke operators, managers and assistant managers gathered, called there upon the invitation of the State Mine Inspectors of this section.

The meeting was called by the State officials to further discuss the order that no more "shooting from the solid" should be permitted, and that all the existing mining laws should be enforced with the utmost strictness.

Among the State Mine Inspectors present were Isaac G. Robey of Uniontown; P. J. Walsh of Conneltsville; David R. Blower of Scottsdale, and William Morris of Brownsville.

The largest operator to be represented was the H. C. Frick Coke Company for which General Superintendent W. H. Clingerman of Scottsdale appeared. Mr. Clingerman said that his company lived to the provisions of the law as closely as they know how, and referred to a recent meeting in Scottsdale in which over 400 of their officials were called together, when Thomas Lynch, President of the company, made an address directing the utmost care should be observed in compliance with the laws and the printed and written instructions which from time to time the company sends forth in order to keep their men posted on the requirements made by the State and the company. He said that it had been ever the endeavor of the company to comply with the regulations of the State Inspectors as to improvements of any conditions in the Frick mines.

Attorney John E. Kunkle of Greensburg, appeared for the Huff, Jamison, Westmoreland Coal Company and other interests in that end of the district, while others appeared for other operators.

There was a large representation of Fayette county's mining and coaling interests, and the meeting was carried through rapidly, adjourning within an hour after Attorney D. M. Hertwig had outlined the position of the State Inspectors in the matter, under the recent decision requiring the inspectors to a strict enforcement of the laws as they stand. He stated that it was not the purpose of the inspectors to prosecute any of the operators or to place them at an unnecessary expense or inconvenience. But their chief requires of them a strict compliance with all conditions that they may find in their inspections, and made in accordance with the laws passed by the Legislature. There was but little comment made upon his presentation of the situation and no action was taken on the matter.

THIRTY MINUTES TO GET OUT.

One drunk and a suspicious character were arrested last night and given a hearing this morning. The drunk took 18 hours, while the suspicious person had 30 minutes in which to leave town.

SUNDAY MOUNTAIN PARTIES.

Tomorrow promises to be a great day in the mountains.

Fair. Fair tonight and Sunday; warmer Sunday, is the noon weather forecast.

FIRED CUSHION AT BURGALAR.

A burly negro entered the home of Will Nahr, at North Bellevernon, and in his pajamas, holding a revolver, he threatened to shoot Nahr. Nahr, who seized a sofa cushion, struck the intruder on the head with it. The noise awakened Mr. Nahr in an adjoining room, but when he arrived on the scene with a revolver the intruder was no where in sight. Mr. and Mrs. Nahr formerly resided in West Newton, the latter formerly being Miss Elizabeth Best, of that place.

FALL IS SERIOUS FOR EARLOCKER.

He Was Working on Furnace School at Dunbar When Rope Broke.

DROPPED 40 FEET TO GROUND

Sustained Fracture of the Skull and Is Removed to the Cottage State Hospital in a Serious Condition. Landed on Stone Plac.

While working on the furnace school at Dunbar this morning, William Earlocker, aged 28, fell 40 feet and landed on a pile of stones, sustaining a fractured skull. The injury may prove fatal. Earlocker is unmarried.

While working on the building this morning Earlocker swung outward over the edge of the roof, hanging by a rope. The strand broke under Earlocker's weight and he dropped like a shot upon a pile of stones 40 feet below.

The injured man was hurried to Dr. D. J. McKinney's office, but his condition was so serious that his removal to the hospital here was instantly ordered.

Earlocker was employed by Peter Johnson, the Dunbar plumber, and was making some necessary repairs to the building prior to the opening of school.

LITTLE GIRL ABUSED.

Patrick Woods Charged With Horrid Crime.

Patrick Woods, alias Patrick Carroll, aged 39, is in jail charged with felonious rape, and Miss Bella Lewis, aged 15, daughter of Mrs. Isaac Lewis of West Brownsville is recovering from a terrible experience. The girl was lured away from her younger sister at the Merchants' picnic at Rock Point, and it is alleged was held and abused from Thursday afternoon to Saturday evening, when in a pitiable plight she was taken back home, where, when Woods started to drag her away again, when her mother attempted to get her, he was arrested.

WEST PENN GIRL.

A Real Beauty Selected by Superintendent J. W. Brown.

Have you seen the West Penn Girl yet? She's a peach. Superintendent J. W. Brown of the Transportation Department has secured a supply of her, for those who admire feminine beauty. She is mounted on a post card and is a thing of beauty and a joy forever.

For lovers of art and admirers of fair women the West Penn Girl can be secured at the rate of 3 for 10 cents and those who have seen her in her various moods feel like investing in the whole business.

BREAKS THE NEWS.

Chief Rottler Serves Notices for Laying Pavements.

Chief of Police Rottler went to the West Side this morning armed with 21 paving notices. Property owners along Eighth street, between Main street and Leisenring avenue will be required to lay pavements required by ordinances and unless the notices are complied with the sidewalks will be laid by the borough, at the expense of those ignoring the order.

DISPUTE OVER PROPERTY.

UNIONTOWN, Aug. 21.—The dispute of J. C. Highbottom and Mrs. Anna Pouch over the title to a place of property in South Brownsville is up in court again. Highbottom has instituted a proceeding in ejectment to secure possession of the lot and second story of the house.

NO BULLSHIT IN HIGH SCHOOL.

E. Warren Christner, the veteran Bullshit township pedagogue, has made many inquiries and investigations of the success of township high schools and is now entirely satisfied that Bullshit can well afford to pay tuition for many years to come.

PITTSBURGER LIKELY TO BECOME PROPRIETOR OF YOUGH HOUSE.

H. M. Bolter Is Closing Up Final Details for Purchase of Well Known Hostelry.

GET RESTRAINING ORDER.

Will Test Constitutionality Act of Last Legislature.

HARRISBURG, Aug. 21.—Judge Shull, of Perry county, sitting in the Dauphin county courts, yesterday, granted a preliminary injunction to the A. L. Rounfort Company, incorporated, against Chief Factory Inspector John C. Delaney, restricting him from enforcing the recent act of the Legislature regulating moving picture theatres.

This action is the beginning of a case to test the legality of the act of May 3, 1909, which greatly restricts the inside arrangements of moving picture theatres. The action is brought by the United Moving Picture Theatre interests of Pennsylvania.

MAJOR SIDEBOTTOM RUNNING TOO FAST

Officers Pick Him Up and Place a Charge of Rough Riding Against Him.

For pulling off several equestrian stunts that are not approved of by the police Major Sidebottom was arrested yesterday afternoon by Officers Kull and O'Brien on charges of public intoxication and reckless riding. According to the police, Sidebottom has a penchant for playing "rough rider" when he accumulates a jug and yesterday was no exception to the equestrian habit.

He had hired the horse from Morris' livery stable, claiming he was on his way to a Squire to prosecute a man for "arson," whatever that is. He was given a hearing before Burgess Evans last night.

"Can I use your telephone for about 15 minutes," he asked the Burgess after being fined \$5. He was given permission to use the phone.

After calling up several parties in Saydettown in an effort to raise the fine, Sidebottom shifted his tactics. "Gimme Doc Baker," he yelled to the hello girl.

"This you, Doc," he called as Dr. Hugh Baker responded to the furious clanging of the bell. "You know who this is, don't you?"

The doctor evidently didn't know. "Why this is Major Sidebottom. Sure you know me. Say, Doc, I want you to come down to the police station and examine me. They have senkaded me for 72 hours and I want you to see whether my physical condition can stand it that long."

"You say you are busy? What? Can't come down just now? Well, all right then," and about that time Chief Rottler rushed the vociferous and vehement Major back to the cells. A friend showed up later and paid the five.

HAVE TO USE THE LITTLE WORDS NOW

Telegraph Companies Will Charge More for Words Over Five Letters Long.

Chalk up another one against the telegraph companies. Not satisfied with the boosting of rates that has taken place in the past year or so, both the Western Union and Postal companies have issued notice to effect that beginning September 1 all code words more than five letters long will be charged as two words.

This will hit the patrons of the line hard. Practically all of the manufacturing establishments in this section employ the code system both in sending and receiving messages. Most of the code words are more than five letters long, too, which means that the former 10 word messages will get into 15 and 20 words under the new ruling.

The telegraphic codes were invented to save a whole lot in a little space. It is a big saving to heavy users of wire. Often dozens of words were condensed to 10 or 15, according to the operator's method of counting, but now all of those code words more than five letters long will count as extra letters. If one happens to be over 10 letters long it will be charged as three words.

New Brewery Agents.

The Pittsburgh Brewing Company yesterday filed with the probate court the names of two new agents. Nick Soldano was made agent at Dunbar, instead of Rosario Visconti, discharged, and George Vavio was given the territory at New Salem, Shamrock, Footedale and Orient to succeed Edward Edmfield, who is made agent at Thompson Nos. 1 and 2 and Tower Hill Nos. 1 and 2.

MR. CAULLEY TO RETIRE

Has Been Manager for the Creditors Since James McGloin Relinquished Hotel—Property is a Valuable One and Well Patronized.

The Yough House is to be sold again. H. M. Bolger of Pittsburgh is said to have completed negotiations for the purchase of the hotel property and the deal will probably be closed the first part of next week.

J. J. Caulley is the present manager of the hotel, having first been appointed receiver after James McGloin made an assignment. Following Mr. McGloin's discharge from bankruptcy, Mr. Caulley was retained as manager for the creditors who purchased the hotel, property and license for \$80,000.

Mr. Bolger has been negotiating for the purchase of the hotel for several weeks and it is now said that he has completed all preliminary arrangements and that the deal will go through next week.

Mr. Bolger is a young man of Pittsburgh, where his parents have conducted a hotel in the West Side for many years, and he has a thorough knowledge of the management of the hotel.

Under the management of Mr. Caulley the hotel has been splendidly successful, but it is said that he does not care to continue in the business. At present he is on his vacation and is not expected to return home before the middle of next week. During his absence the management of the hotel has been in charge of M. J. Roland.

The property valuations of the hotel is placed at \$80,000, while the good will and hotel equipment is figured at \$20,000. The establishment is one of the oldest and best known in Western Pennsylvania, and it is believed that the new proprietor will make a big success out of it.

TOLL RATES GET A HEAVY BOOST

Will Cost Three Cents to Walk Over Bridge Near Suterville Hereafter.

SUTERVILLE, Aug. 21.—Travelers over the Allegheny and Westmoreland bridge spanning the Youghiogheny river at this place are confronted with the intelligence that an increase in the toll rates had been ordered by the officers of the company, effective at once. The new rate is three cents for pedestrians and 25 cents for a one-horse rig, with corresponding increases for larger conveyances, and represents an advance of 50 per cent. over the old rate. As a consequence the people are up in arms, and will demand the immediate freeing of the structure. With this end in view, papers have already been prepared and are in circulation.

The structure was erected about 10 years ago by the late Attorney Homer J. Swanner and a number of McKeesport capitalists, and was originally intended for the use of a trolley line up the Yough to West Newton. Failing in the securing of rights of way through Suterville, then part of Sewickley township, the railroad company abandoned the extension and the line was completed only as far as Scott Haven.

The structure is liberally patronized, is an important outlet to the town of Suterville and a convenience to thousands of residents in the two counties. Upon the completion of the new State road to Elizabeth from the western end of the bridge, the structure will become a greater public necessity. Merchants on both sides of the river maintain that their business will be materially affected by the increased rates.

In speaking of the new order on the part of the company, Superintendent John Kellner said that the increase was necessary in order to meet the large expense of maintaining the highway and the payment of interest on the bonds of the company. The structure, one of the most imposing along the stream, has been allowed to disintegrate, and is now in a bad state of repair. The use of the bridge during the low stage of the river has affected the business of the bridge, and as long as the low stage continues will still be more popular, now that the rates of toll have been advanced. Merchants and citizens generally are insistent now, more than ever before, upon the freeing of the structure.

Color on the Mountains.

Autumn is beginning to paint her colors on the mountain sides along the B. & O.

REUNION OF DULL'S BIG AFFAIR.

Organization of the Clan Is
Affected at a Rousing
Gathering.

FAMILY HISTORY IS TRACED

A. E. Harbaugh Writes Interestingly
of a Well Known Mountain Family.
John S. Dull, President For Life,
Dr. Colborn Secretary.

By A. E. Harbaugh.
The descendants of George Dull, Esq., deceased, of Mill Run, Pa., have organized an annual reunion meeting with officers and committees fully equipped. Wednesday, August 18th was their first annual outing at Killarney Park on the Indian Creek Valley railway. The train brought a host of relatives and their friends from near and far and by noon the large pavilion was filled with hungry guests who sat to tables loaded with the most appetizing food and delicious. All paid ample justice to this gastronomic feast and the tables were cleared. The Mill Run Cornet Band played "Rock of Ages." Rev. L. S. Colborn of Richwood, O., called the assembly to order and offered prayer. An organization was effected: John S. Dull of Mill Run was elected President for life—being the only surviving son; Dr. A. J. Colborn of Connelville, Secretary; Grant Dull of Connelville, Treasurer.

Rev. Colborn began in a happy vein a descriptive outline of the career of his grandfather George Dull. The ancestry bore many illustrious names and all were of unimpeachable character, all of religious nature, and talented with God-given powers, and lived virtuously.

George Dull, the subject of this sketch, a native of Somerset county, was an early settler at Mill Run. He was a prosperous farmer and skillful blacksmith. He was a member of the United Brethren Church, and his class connected with the Springfield circuit was called the "Dull Class" until it became the Mill Run Church or congregation. He was a leader and a sweet-voiced chorister. He set chords vibrating, the melody of which never ceases as years flow on. His benevolence and straightforward life is possible of imitation, but it was the light of Christ in him that was the light of Christ in him.

Of 11 children born to his first union with Catherine Walter, six sons and five daughters were as "olive plants about his table."

Daniel W. Dull, the eldest son, was a successful man, and held offices, was a merchant, and was a gallant soldier. His descendants are worthy and respectable, of whom are George Walter Dull, Elmer E. Dull, Mrs. Newman, Mrs. W. H. Bailey and Miss Carr.

Crish, the second son, was of great prominence. His business was well known. His recent venture was partnership with the late Solomon Davis, his brother-in-law, in the mammoth feed store on Peach street, Connelville. He served through the Civil war. George, Grant, Jacob and Harry are well known sons, being gentlemen of worth in their business. The daughters are of good repute and are kind.

Stannus died in defense of the Union.

Jacob served his country, and died a few years ago, being respected by all who knew him.

William II. was recognized as a fine old gentleman. He was a soldier with a brave record. Was a truly pious Christian. Frank, an only son, is a thriving business man of Connelville. The four daughters are worthy examples of womanhood—the youngest, Olive, lately deceased, was greatly lamented.

John S. is one of the bone and sinew of the community in which he lives. A straight, thorough, religious man in all good works. Of six children five live to honor their name: Stanton D. is an active Christian business man of Connelville.

"Felix," a daughter, is the gentle wife of Rev. F. S. Woriman, pastor of the Baptist Church at Mill Run. Catherine D. is wife of Philip Paul. Irwin and Charles are good students, and are pillars in church and society.

Julia A. was the eldest daughter of George Dull. She married David Colborn of Somerset county. He died when all his children were small. She came back to Mill Run. A daughter, Anna, died young. "The boys" are Rev. Lafayette S. Willis D. George W. Walter S. and Dr. Andrew J.

Rev. L. S. Colborn was the "boy preacher." He started at Mill Run, and was in any thorough college and pastored in New Jersey and Ohio. His strong point is for righteousness. He will not compromise with sin in any of its forms. It brought him much enmity, but with the "sword of the spirit" he wins out every time.

The other brothers, whose names are given, stand well in their callings, and their home lives are elegant, and their hospitalities are broad. W. S. Colborn began at the bottom round of the ladder, and is a budding merchant, a contractor and builder, and is a devoted church man, and is at the head of Sunday school work. God bless all their loving lives!

Rebecca, daughter of George Dull, married Solomon Davis, ex-County Commissioner. Sons: Romanus C. John, Homer and Charles are well

Known business men of Connelville. Daughters: Ella married John Bailey. Kate married Rev. George H. Flynn. "Mollie" died single. All their record is of the finest order.

Mary C. Dull married Hiram C. Sipe, of which we have Stanton D. Sipe, Alice Slater, now deceased; Ida Hicks. Katie Gennis, deceased. George died young. Mary was a noble woman and died happily.

Lachman, the youngest of George Dull's family, married Alexander Brooks. They have children and it is thought they are doing well.

This article is disinterested; but it gives the facts as the writer is aware of, and is written without undue influence.

Were it a psychological fact that the spirits of the worthy deceased ancestors and connections were present at the family reunion during the masterful address of Rev. L. S. Colborn, the bent intellect of Rev. George H. Flynn, the elegant recitation of Dr. Risk they would have waved their palms and bowed their smiles and benedictions; but the aftermath which was not programed nor contemplated, resulted in some taking a turn in the glide walk, square dancing, and ending in a coronation called in mountain parlance "The Sam Hail Breakdown." The shades of the departed screened their eyes, wept and fled, while the self-respecting and revering ones fled away to their homes.

NEWCOMER'S HOLD FOURTH REUNION

Large Gathering of the Family and Its
Connections at Shady
Grove Park.

Large and enjoyable was the fourth annual reunion of the descendants of Ulrich Neukommer and Magdalena Baumgartner held yesterday at Shady Grove. Despite the inclement weather the day was greatly enjoyed by the large number of guests. The guests commenced to arrive on the early train in the morning and by noon practically all the friends and relatives had arrived. At noon an elaborate dinner was served from two large tables arranged on the large dining pavilion. The menu consisted of all the delicacies of the season.

The progenitors of the Neukommer families were Ulrich Neukommer, a native of Teutonic Switzerland, the German spelling of his name was Neukommer, and during his life and that of his children the German was adhered to in both the speaking and writing. When the English was adopted the name was changed to Neukommer the present one. The first Neukommer of this family was born about the year 1730 and was reared and married in his native country. He was an ardent follower of the Reformed faith. As the result of the religious dimensions that were existing at the time he left his native country between the years 1750 and 1760, and settled in the (then) Province of Pennsylvania in what is now Lancaster county. At the time he left Switzerland he had a wife and child. His wife died during their passage and on his arrival in the land of the free he was a widower and the father of a little stranger.

Salvationists' Leader
Compelled to Retire by
Age and Illness.

Albert G. Fretts and William Rath had a small horse wreck west of town where the Baird Brothers were threshing. For Jacob L. Graft, on Friday. The two men were driving past the machine, when Rath's horse which was behind frightened and reared up and got his front foot in the back of the backboard that Fretts was driving, scaring the first horse so that the two made a tangle in which some spokes were knocked out of the Fretts backboard. Beyond this there was no damage done, although things looked pretty exciting for a while.

Two Ministers at Chapel.
There will be two well known ministers at Wesley Chapel, west of town, of which Rev. Archibald Auld is pastor, tomorrow. Rev. J. L. Shively of the Gwynedd Methodist Episcopal conference of Illinois and Rev. B. W. Hutchinson of Washington, Pa. Rev. Shively will preach at the morning services at 10:30 and Rev. Mr. Hutchinson at the evening services at 7:30.

STERLING SELECTED.
Will Deliver Notification Speech to
Democratic Candidates.
ALLENSTOWN, Pa., Aug. 21.—Democratic State Chairman Arthur G. Dawalt has appointed the committee to notify the candidates selected at the recent Democratic State convention at Harrisburg of their nomination. The committee consists of one man from each of the 60 Senatorial districts in Pennsylvania. The notification meeting will be held in the Court House at Williamsport next Wednesday at 1:30 P. M.

The notification speech will be made by Bruce Sterling of Uniontown, who was the presiding officer at the convention. The committee has not yet been made up in its entirety. Some of those on it are as follows:
Lehigh county, Democratic County Chairman Jonathan E. Frederick; Pike and Carbon, Congressman A. Mitchell Palmer; Luzerne, John Lenahan; Lackawanna, Edward Blewitt; Berks, Edward McCann; Northampton, ex-Congressman J. David Bodhead; Montgomery, Charles McAvoy; Bucks, Senator Webster G. Smith; Cambria, Bernard Clark; Adams, Frank Wozel; Lancaster, William Britton; York, William Brownson; Elk, Senator J. K. P. Hall; Pittsburgh, James Clark, and Dauphin, William Myers.

DR. ELIOT'S VIEWS ON RELIGION TO BE ANSWERED BY POPE PIUS

The views of the "coming religion" is propounded by Dr. Charles W. Eliot, president emeritus of Harvard university. In an address before the students of the Harvard Summer School of Theology, he elicited wide comment by theologians and others. The address has been accurately translated into Italian for Pope Pius, and it is announced authoritatively that a semi-official reply on lines suggested

by the Pope will be published. It is reported that his holiness has expressed regret that a man of Dr. Eliot's authority and culture should have expressed views which, in the opinion of the Roman Catholic ecclesiastics, are not a basis of new religion, but merely a negation of faith. In his address Dr. Eliot declared his belief that the new religion will not be based upon authority, either spiritual or temporal.

BIRTHDAY PARTY AT SCOTSDALE.

Mrs. Christina Schwartzendruber Object of Pleasant
Day's Entertainment.

MRS. MATT. M'GANDLESS DEAD

Miss Elizabeth Monroe Stricken Down
By Flash of Lightning—Young Ladies Entertained—Two Ministers at Chapel.

SCOTSDALE, Aug. 21.—It was a most delightful surprise party that was tendered by her son Richard, and daughter-in-law, Mrs. J. L. Schwartzendruber on Thursday, when Mrs. Schwartzendruber and her daughter-in-law returned to their home on Market street after being out shopping and found the house full of friends and neighbors. They had quietly gathered in while the ladies were out making their purchases. Mrs. Schwartzendruber received many beautiful presents, among them a large cut glass dish from her son, Christopher, who lives in Pittsburgh and who was unable to be present. All her other children were present. They are William, Jacob and Richard, and granddaughter, Olive, and sister, Mrs. Charles Mulkenburg of Mt. Pleasant, a niece Mrs. D. Coughenour from Woodville, Mrs. J. W. Steinhilber from Richmondville, Mrs. Henry W. Stauffer, Mrs. Barbara Strickler, Mrs. J. S. Musgrove, Mrs. J. C. Steiner, Mrs. G. W. Reid, Mrs. S. W. Newman, Mrs. Martha Kistner, Mrs. Margaret Hilton, Mrs. M. B. Porter and son, Master Ken neth, Mrs. Hester A. Anderson, Mrs. Elizabeth Morrow, Miss Lou Stauffer, all of Scottdale.

At 12 o'clock the guests assembled in the dining room to a sumptuous dinner, to which all did justice and a flow of conversation and reminiscence made a jolly time. Mrs. Barbara Strickler, wife of the late Joseph Strickler, was the oldest lady present being in her 83rd year, while Mrs. Hilton is aged 84 and Mrs. Morrow aged 85. Quite a number remained after supper and then all departed wishing their hostess many happy returns of the day.

Merchants Met Last Night.
The Scottdale and Everson Merchants' Picnic Association met last night at the Borough building and wound up all affairs of the picnic which went to follow this week. After all expenses were deducted it was found that there remained in the treasury \$10 which will be put aside for the nucleus for a similar fund for a picnic next year.

Mrs. McCandless Dead.
Mrs. Almina Ann McCandless, wife of Matthew McCandless, died at the home of Mr. and Mrs. George B. Zeller, on Market street, Scottdale, Friday evening, after not quite a week's illness from indigestion, aged 61 years. Mrs. McCandless is a pipe inspector for the city of Pittsburgh, and has been stationed several times at the United States Cast Iron Pipe & Foundry Company's plants in Scottdale, when they are engaged on contracts for Pittsburgh, and has been here the last time for several months. They roomed at Mr. Zeller's and boarded at the New Scottdale House, and had made many friends here during their stays. Their Pittsburgh home is at 140 46th street. Mrs. McCandless was born in Clarion county and was married to Mr. McCandless 12 years ago. She was a member of the Presbyterian Church of Clarion and besides her husband leaves two brothers, Robert Beatty of Pittsburgh, and Grant Beatty of Clarion.

BLAZING BOAT IS BEACHED.

Passengers in a Panic on
Illinois River
Steamer.

CRAFT BURNS TO WATER'S EDGE

Twenty-five Passengers and Crew of
Fifteen Have Thrilling Escapees
From Steamer Fred Swain—Struggling Mass Thrown into Water.

Peoria, Ill., Aug. 21.—The steamer Fred Swain, Captain Verne Swain, of the Peoria and LaSalle Packet company with twenty-five passengers and fifteen sailors aboard, burned to the water after the flaming craft had been piloted into four feet of water and the occupants had escaped to the bank of the Illinois river, up which the steamer was bound when it caught fire.

No lives were lost, but Joseph Casrider, the engineer, was burned about the face and body, and Charles Reichberger of Peoria suffered a broken arm. The loss is \$35,000. Several of the passengers lost their belongings.

The escapees from the burning vessel of the passengers, most of whom were women and children, was exciting and at one time when flames were discovered leading from a stateroom on the second deck, panic reigned. Passengers were partly calmed as the burning steamer drew nearer shore and scores of rowboats were seen hurriedly putting out to the rescue.

Gang Plank Caught Fire.
The gang plank was lowered to the water's edge when the steamer had been beached and one rowboat after another took off a load of passengers and sailors. After two boats had loaded and started for shore the gang plank caught fire and fell away from the steamer, letting fifteen persons, including several women and children, into the water. Thomas Powers of Peoria and E. A. Caron of Worcester, Mass., who were on the plank when it fell, each saved the lives of two children, half carrying and half swimming with the tots on their back and shoulders to old tree stumps to await the arrival of rescuers.

The others who were thrown into the water by the collapse of the gang plank were taken in boats to safety. Those still aboard the steamer managed to let out a new gangway at a place farther from the flames which were rapidly creeping over the boat. The fire was discovered in a stateroom by Mrs. Eugene Furbush, a cabin girl. She spread the alarm, but all efforts to subdue the flames proved fruitless, the fire spreading rapidly. Captain Swain, realizing that the vessel was doomed ordered Pilot Martin Huston to beach the boat and instructed his crew to deal out life preservers.

Engineer Sticks to His Post.
Engineer Casrider, after attending to the boilers to guard against an explosion went to the pumps, remaining there until the flames licked his face. Severely burned and almost blind, he turned to escape only to find that a rowboat which had been left for him had caught fire. He got into the boat, however, and beating the flames from him and rowing hard reached shore. He was taken to a hospital. William Blitt, who, with his young son Harold, was rescued by a motorboat, said: "I, with my son, was sitting on the front end of the second deck when I heard a little girl remark to her mother, 'Mama, look at the fire.' The woman turned in her chair, and on sighting the flames, shrieked 'The boat's afire.' Instantly a panic ensued, all making a rush to the lower deck. When the gang plank was lowered after the bow was sent into the willow trees and stumps near the bank, all scrambled on it and all were plunged into the water when the cables were parted by the flames.

OF LOCAL INTEREST.

Some People We Know, and We Will Profit by Hearing About Them.

This is a purely local event. It took place in Connelville. Not in Buffalo or New York. You are asked to investigate it. Asked to believe a citizen's word. To confirm a citizen's statement. Any article that is endorsed at home is more worthy of confidence. Than one you know nothing about. Endorsed by unknown people.

Mrs. J. W. Zimmerman, 107 South Prospect street, Connelville, Pa., says: "Hard work and severe colds caused Mr. Zimmerman's kidneys to become disordered. He suffered from severe pains in his back and sides and was in poor health generally. Finally he learned of Doan's Kidney Pills and began their use. They gave him prompt relief and on occasions since when he has appealed to them, they have brought the desired results. Both my husband and myself value Doan's Kidney Pills very highly."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no relief.

COAL PRODUCTION IN ILLINOIS.

The Second State in Import-
ance Little Affected by
Depression.

GETTING RID OF SCREENINGS

Was the Most Unsatisfactory Part of
the Operations—Miners Best Or-
ganized There of Any State in the
Union.

The total production of coal in Illinois in 1908, according to statistics collected by E. W. Parker, of the United States Geological Survey, under cooperative agreement with the Illinois Geological Survey, was 47,659,690 short tons, having a spot value of \$49,978,217.

In Illinois, the second among the coal-producing States, the effects of the monetary disturbance do not seem to have been as seriously felt as in some of the other States. The statistics for the fiscal year ended June 30, 1909, compiled by David Ross, Secretary of the Bureau of Labor Statistics, show that the coal production of Illinois during that fiscal year amounted to 48,272,152 short tons, as compared with 47,798,821 tons in the fiscal year ended June 30, 1907, and 51,317,146 tons during the calendar year of 1907. The production reported to the United States Geological Survey for the calendar year of 1908 was 47,659,690 short tons, a decrease of 3,657,456 tons, or 7.1 per cent, compared with the calendar year 1907, or of 1,612,793 short tons, compared with Mr. Ross' figures for the fiscal year 1908. The value of the coal production of Illinois in 1908 was \$49,978,217, against \$54,678,382 in 1907, a decrease of 8.61 per cent. The per cent of decrease in Illinois's production, both in quantity and value, was much smaller than in any other important coal-producing State, and this may be attributed to the fact that relatively small quantities of Illinois coal are used in the iron and steel trades, where most of the effects of the depression were felt. The manufacturing industries depend on Illinois coal for fuel and these industries were less adversely influenced by the panic, while there was little or no falling off in the demand for coal for domestic consumption. The most unsatisfactory feature of the year's business in Illinois was the great difficulty experienced in getting rid of screenings. The comparatively insignificant decline in the average price per ton from \$1.67 in 1907 to \$1.05 in 1908—was due principally to the more exacting demands of consumers for screened coal, leaving unusually large quantities of slack as a waste product. The inability to dispose of the slack coal made the cost of the marketed product higher and made the returns to the operators less favorable than the slightness of the decline in price would indicate.

The only notable interference with mining operations was the suspension in April and May, when the operators and miners were attempting to reach an agreement on the wage scale. Throughout the remainder of the year there were no serious strikes or shut-downs because of labor troubles. Although 47,456 men were idle for an average of 37 days each, the number of idle men was about 70 per cent of the total number employed. The total time lost was a little less than 14 per cent of the total time made during the year.

The car supply was good throughout the year, as was also the supply of labor, the number of men employed showing an increase of nearly 2,500 in 1908, as compared with 1907, notwithstanding the decrease in production. Dry weather was somewhat unfavorable to many operators, particularly in the central and southern portions of the State where many were obliged to haul water in tank cars by rail for use in boilers.

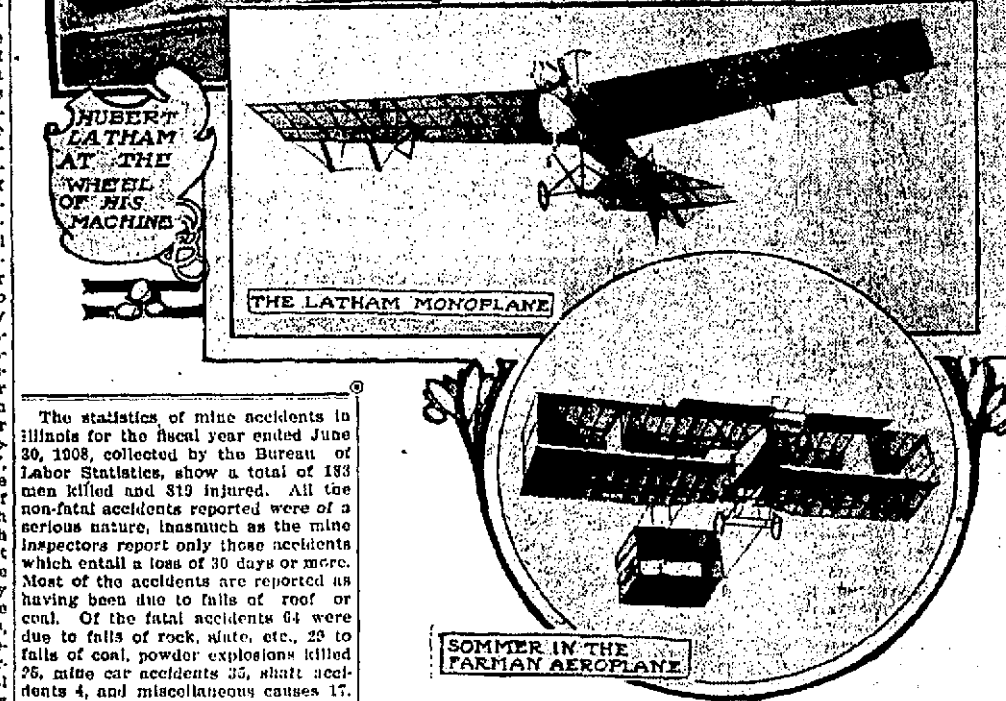

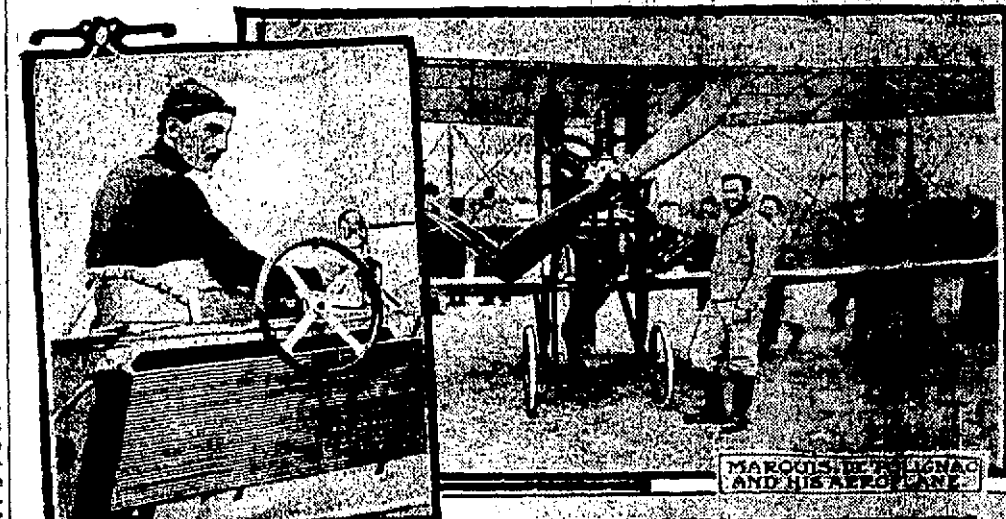

The total number of men employed in the coal mines of Illinois in 1908 was 68,085, who worked for an average of 186 days, as compared with 66,881 men, who worked for an average of 214 days in 1907.

The average daily production of each man employed in 1908 was 3.79 tons, an increase of 0.2 ton over 1907. Approximately the same increase was shown in 1907 over 1906, and in 1906 over 1905. Owing to the fewer number of days worked, however, the average production by each man for the entire year 1908 was less than in 1907, the figures being 701 and 732.2 short tons, respectively. A part, if not all, of the increased production per man per day was due to the increased use of mining machines. In 1908 there were 1,217 machines in use, and the machine-mined product amounted to 16,045,901 short tons, or 31.57 per cent of the total, an increase of 2.08 per cent over 1907.

The coal mine workers of Illinois are probably better organized than those of any other bituminous coal mining State, and by far the larger number of the coal mines in the State are operated on the basis of the eight-hour day. In 1908 only five mines, employing 510 men, worked nine hours.

During 1908 there were 3,585,112 short tons of Illinois coal washed before shipment, the cleaned coal from the washeries amounting to 3,202,264 short tons and the refuse 362,848 tons. In 1907, the washing operations yielded 2,465,767 short tons of cleaned coal and 522,612 tons of refuse.

FLYING MACHINES ENTERED IN AVIATION WEEK AT RHEIMS, FRANCE.

THE STATISTICS OF MINE ACCIDENTS IN ILLINOIS FOR THE FISCAL YEAR ENDED JUNE 30, 1908, COLLECTED BY THE BUREAU OF LABOR STATISTICS, SHOW A TOTAL OF 193 MEN KILLED AND \$19 INJURED. ALL THE NON-FATAL ACCIDENTS REPORTED WERE OF A SERIOUS NATURE, INASMUCH AS THE MINE INSPECTORS REPORT ONLY THOSE ACCIDENTS WHICH ENTAIL A LOSS OF 30 DAYS OR MORE. MOST OF THE ACCIDENTS ARE REPORTED AS HAVING BEEN DUE TO FALLS OF ROOF OR COAL. OF THE FATAL ACCIDENTS 64 WERE DUE TO FALLS OF ROCK, WIRE, ETC., 23 TO FALLS OF COAL, POWDER EXPLOSIONS KILLED 26, MINE CAR ACCIDENTS 35, SHAFT ACCIDENTS 4, AND MISCELLANEOUS CAUSES 17. THE DEATH RATE PER THOUSAND, BASED ON THE BUREAU'S FIGURES FOR THE FISCAL YEAR, WAS 2.56 IN 1908 AND 2.52 IN 1907. THE NUMBER OF TONS MINED FOR EACH YEAR IN 1908 WAS 47,659,690, AGAINST 51,317,146 TONS IN 1907.

Probably the earliest mention of coal in the United States is contained in the journal of Father Hennepin, who as early as 1679 reported a "cold" mine on Illinois river above Fort Crevecoeur, near the site of the present city of Ottawa. It is also probable that, outside of anthracite mining in Pennsylvania and the operations of the Richmond Basin in Virginia, Illinois holds the record for priority of production. Coal was produced in Jackson county in 1810 from a point on Big Muddy river. A flatboat was loaded with coal at this place and shipped to New Orleans, but the quantity is not stated. Again, it is reported that in 1832 several boatloads were sent from the same vicinity to the same market. Another record is found stating that 150,000 bushels (or 6,000 tons) of coal were mined in 1833 in St. Clair county and hauled by wagons to St. Louis.

According to an estimate by M. Campbell, of the United States Geological Survey, the original coal supply of Illinois when mining began was 240,000,000,000 short tons, all bituminous and contained within a total area of 35,500 square miles. The total production of the State at the close of 1908, so far as records are obtainable, amounted to 693,327,393 tons, which, with half a ton wasted for every ton mined, is equivalent to a total exhaustion of 1,040,000,000 short tons, or about 0.4 per cent of the total estimated supply. The production of coal in Illinois in 1908 was about 7 per cent of the aggregate production to the close of that year, and the quantity of coal estimated as still remaining in the ground is 5,900 times the production of 1908, or about 3,300 times the exhaustion represented by that production.

FOREST FIRE RAGES

Flames Sweeping Through Fir Timber in Washington State.

Spokane, Wash., Aug. 21.—Three hundred farmers and timbermen are vainly fighting a great forest fire three miles wide which is sweeping through the splendid fir and tamarack timber north and west of Lake Coeur d'Alene. For forty hours the fire has defied all efforts to check it.

The fire is about twenty-five miles southeast of Spokane. For every mile it moves it is estimated \$100,000 worth of fine timber is destroyed. The loss thus far is more than a million dollars.

Mills at Sharon Start Monday. Sharon, Pa., Aug. 21.—The American Sheet and Tinplate company will begin Monday placing the ten idle hot mills in operation at the South Sharon plant, with new men. The strikers refused to accept this vacant positions.

Governor Falls to Settle Strike. Newark, N. J., Aug. 21.—Governor Fort admitted here with regret that his efforts to settle the hatmakers' strike had failed. The men have now been out more than five months.

WILLARD AMUSED.

No Mile a Minute Flights Yet, Says Aviator.

Minneapolis, N. Y., Aug. 21.—C. Foster Willard's first attempt to win the trophy offered by a periodical for the longest flight by an aeroplane failed.

CHARLES FOSTER WILLARD.

because of an accident to the framework on his machine, the Golden Flyer. After flying in a semi-circle for nearly a mile Willard was compelled to alight and postpone further attempts until next week.

Mr. Willard laughed heartily when told that it had been reported that his machine had made a mile a minute in the brief flights.

"As I covered no measured course," said Mr. Willard, "I don't see how any timing could have been done. The machine cannot make over forty-two miles an hour and I am free to say that no aeroplane as at present constructed can do over fifty miles an hour, unless there are some new developments at Rheims. These reports of a mile a minute are all beach and don't do the science of aeroplaning any good."

EXPECTED THE SUIT

Aviator Curtiss Says He Anticipated Action by Wright Brothers.

Rheims, Aug. 21.—Mr. Curtiss was not greatly surprised when informed that the Wright brothers had brought suit against the Aeronaute society of New York, alleging that the Curtiss machine infringes certain of their patents. He said he had known for some time that something of this nature was contemplated, but he failed to see how it would result in anything but a lot of litigation.

"There is nothing to support the charge of infringement," Mr. Curtiss declared. "The best answer to this is the fact, known to everybody, that we made public flights in America long before the Wrights did. This shows that there could not have been an imitation of their machine by us. All competent persons who are familiar with the two machines and with whom I have discussed this matter agree that they are unable to see

how the charge of infringement can be supported, and I am confident that the court will uphold us."

DUN'S REVIEW OF TRADE

Volume of Business Reaching Big Proportions Especially Iron and Steel. New York, Aug. 21.—Dun's Review of Trade says today:

"Reports from the principal cities unite in confirming the revival in trade. The prospect is that the volume of business will before long attain such proportions that maximum capacity will be reached and labor be at a premium. In the iron and steel trade this condition indeed seems to be already in sight; and that the wonderful expansion is no more mushroom growth is evidenced by the advance orders for 1910. The railroads are enjoying such increases in earnings and such assurances of good crops that they are buying freely of steel rails and other supplies.

"Orders for iron and steel are increasing so rapidly that mills and furnaces experience difficulty in making deliveries, and in some instances premiums are being paid for prompt shipment."

SUFFRAGETTES DISLOGGED.

Water Soaked and Numb With Cold When Found.

Glasgow, Aug. 21.—Three rain-soaked and benumbed but still valiant suffragettes were dislodged from the roof of St. Andrew's hall, where the Earl of Grey, secretary of state for the colonies, spoke last night.

Strict orders had been issued to exclude all women from the meeting so the suffragettes decided to break into the building through the trap door on the roof. In the middle of the night the three women secured a ladder and climbed to the roof, where they hid behind a chimney waiting to put their plan into operation. When they were discovered they were nearly perishing from wet and cold, but they declined to come down and much difficulty was experienced in removing them from their perilous position.

WANTS A MILLION DOLLARS

Suffragist Hopes to Wage Good Fight for Votes for Women.

New Orleans, Aug. 21.—"I want to raise a million dollars to aid in making the woman's suffrage question an issue and to attack the power of organized vice," declared Miss Kate M. Gordon, upon her return from the northwest. Miss Gordon was recently elected chairman of the Susan B. Anthony fund.

"My plan is to get 100 women to give me \$1,000 each," Miss Gordon continued, "and 1,000 women to give me \$100 each for this memorial fund to Miss Anthony."

MEXICO READY FOR TROUBLE.

Government Troops Are Being Distributed to Many Points.

GENERAL REYES IS WATCHED

Much Political Unrest in Northern Mexico Causes Authorities to Send Soldiers Where Disturbances Are Likely to Break Out.

Mexico City, Aug. 21.—A special dispatch from Monterey to the Mexico Daily Record says:

"Not a weapon of any kind can be bought. Half of the men of the town are carrying concealed weapons. Lodges of clandestine Masons, who recognize General Reyes as chief, are preparing a demonstration at Alameda. Trouble is feared."

Special news dispatches from various parts of northern Mexico agree that the situation throughout that region is one of much political unrest. General Trevino, newly appointed commander of the third military zone, is acting with vigor and decision and during the last two days troops have been moved quietly and swiftly to places where they will be most needed in case of serious disturbances.

The government has the situation well in hand.

The trouble centers about the personality of General Bernardo Reyes, governor of Nuevo Leon and formerly minister of war. The Revista party, with branches in every state, has named Reyes as a candidate for the vice presidency in opposition to Ramon Corral, incumbent, who has been nominated by the administration party.

Some time ago Reyes left Monterey for the summer resort of Galeana in the mountains and recently he left Galeana for the ranch of a friend. Simultaneously troops were sent to the mountains and the latest dispatches say that Reyes is surrounded by federal forces. This is believed to be but a precautionary movement on the part of the government.

One of the most dangerous elements of the situation, according to the Record dispatch, is the alleged called meeting of all the clandestine lodges of Masons throughout the Monterey region. It is asserted that these fraudulent Masons have pledged themselves to support Reyes.

President Diaz is a thirty-second degree Mason and stands high in the estimation of Scottish Rite Masons in the United States.

Reyes' Agents in Texas?

Beaumont, Tex., Aug. 21.—It is asserted today by Charles Valenzuela, a Mexican, that two agents of General Bernardo Reyes have been in Beaumont for several days seeking recruits for the overthrow of President Diaz of Mexico. These agents, he said, wanted him to sign a paper pledging his services in the field on behalf of Reyes in the event the movement now impending assumed a more definite and concerted aspect. He said that the Reyes agents had told him that many sub agents had been appointed throughout the state.

Looks From Cab and Is Killed.

Mountville, Va., Aug. 21.—While rushing through the Mountville yards J. B. Burg, engineer of a Baltimore and Ohio passenger train, was killed when he stuck his head from the cab window. A carload of telephone poles was standing on a siding and one of the poles struck Burg, tearing off the top of his head.

PITTSBURG MARKETS.

Potatoes—Fancy, bbl., \$2@2.50.
Poultry (Live)—Cocks, 10@11; ducks, 11@12; turkeys, 13@14.
Eggs—Selected, 25½¢@26; at mark, 24¢@25.
Butter—Prints 29½¢@30; tubs, 23¢@24; Pennsylvania and Ohio creamery, 27¢@27½.
Herr's Island Live Stock.

RECORDS GO AT NEW SPEEDWAY.

100-Mile Auto Race Was
the Fastest Ever
Run.

NO MISHAPS MAR THE SPORT

Track at Indianapolis Thoroughly
Oiled and Tarred Because of Accident
Which Cost Lives of Driver
Bourque and His Assistant.

Indianapolis, Aug. 21.—Strang and Zengel shared the honors of the second day of the automobile race meet on the new Indianapolis motor speedway. Strang won the fastest 100-mile race ever held in this country, while Zengel established a new ten-mile record.

Not a single accident of a serious nature marred the day's racing. The only injury reported was a bruised arm sustained by Barney Oldfield in the ten-mile free-for-all race in which Zengel made the new record.

Somo 15,000 spectators crowded the two big stands and hundreds of automobiles filled the parking places. The feature of the day was the easy victory of Strang with a Buick, in the 100-mile race. Strang led all the way from the start and won by about ten miles in the exceptional time of 1:32:48.5-10. At first it was thought this was a new record for this country, but the officials announced that they had decided to allow the mark of 1:32:18.9-10 made by Chevrolet in the first 100 miles of the 250-mile race to stand, despite the fact that Chevrolet did not finish the race.

Strang, however, beat Chevrolet's records for nearly all the distances between 50 and 150 miles. Strang's time was more than 11 minutes better than the 100-mile track record made by Buick on a mile track at Columbus, O., on July 3.

Satisfied That Speedway Is Safe.
The American Automobile association will not withdraw its sanction from the meet, as its officials are satisfied that the motor speedway owners have done all in their power to make the course safe. Every inch was oiled and tarred and the bad spots were repaired as much as possible.

The 50-mile race was a walkaway for Wright and Schuster in the Stoddard-Dayton cars. They were the only drivers to finish out of the five starters. Wright won easily taking the lead after the ten-mile mark was passed and holding it to the end.

The five-mile free-for-all handicap was the most closely contested and resulted in a victory for Metz, who drove a National.

The ten-mile race resulted in another victory for the National. This time it was Aitken who piloted the car to victory in the creditable time of 2:26.4-10.

The trial for a new mile record was disappointing, as Walter Christie's freak racer of which much had been expected, refused to show any desire to speed and Christie finally gave up after being unable to get the raktub machine around the track once in warming up. Oldfield carried off the honors of the trials, as he covered the mile in 43.2-10 seconds, only 1-10 of a second slower than the world's record made by him.

WELCOMES INVESTIGATION

Dismissed Loan Clerk Objects to Being "Coat" in Meane Loan Case.
New York, Aug. 21.—Sterling Birmingham, the dismissed loan clerk of the Windsor Trust company, said through his counsel that he was "tired of being made the goat." An investigation was what he would most welcome; it would give him the chance to show that throughout his connection with the loan of \$50,000 to M. M. Joyce, a broker for E. Augustus Heinze, he had acted under orders from his superiors.

The grand jury is anxious to determine this point, as it was on the affidavit of President Young that Birmingham was arraigned in police court, charged with a misdemeanor in accepting \$250 as a fee for his services in pushing the loan through.

BEEES ADJOURN COURT

Magistrate Makes Hasty Exit Through Window.

Columbus, Ga., Aug. 21.—Justice Daniels' court at Shuck, in Chattanooga county, was broken up by a swarm of bees being dislodged from the ceiling. During the argument of an attorney the bees dropped and scattered over the crowd. Almost every person present was stung.

The magistrate escaped through a window. Several persons were seriously injured by the stinging of the bees.

Tuberculosis Sufferer Lived in Box.
East Liverpool, O., Aug. 21.—Suffering from tuberculosis of the right foot, William Stepha, age forty-eight, was discovered living in a piano box on the outskirts of the city, where for months he had managed to keep in hiding from practically every one who formerly knew him. Fearing he would be operated upon and the foot amputated, he decided to keep from public view.

WOMAN IS SHOT.

Tragedy at Police Headquarters at Wilkes-Barre, Pa.

Wilkes-Barre, Pa., Aug. 21.—George F. Marion, aged 57 years, of Atlanta, Ga., shot and instantly killed his common law wife in the office of the chief of police in this city. Marion and the deceased, who was formerly Miss Frances Lee of Zion City, Ill., had been living together as husband and wife for seven years.

Several weeks ago the woman left him and ran away with another man, taking her child with her. He traced them to this city and through the chief of police he arranged to meet his wife at police headquarters. When they met he kissed her and both appeared happy. Turning to Chief of Police Long Marion asked the latter to step from the office a few moments while he spoke to his wife in private. The chief thinking he was accomplishing a kind act by bringing man and wife together readily consented. As soon as he left the room Marion asked his wife if she would return with him, but she refused, whereupon he pulled a revolver and shot her dead. Marion was sent to jail.

TO CREATE EXCITEMENT

Volley of Shots Is Fired Near Struck Pressed Steel Car Plant.

Pittsburg, Aug. 21.—A fusillade of 50 or 100 shots rang out in the vicinity of the Pressed Steel Car plant in Schenectady last night, apparently fired in the air for no other purpose than to create excitement. Strike-breakers within the stockade are known to be worried by the nightly shooting.

Reported incendiary attempts, an attack by a mob of women armed with bricks and mud upon the office forces at lunch hour and the taking into the plant of scores of imported workmen formed features of an exciting day at the works, while a legal battle for the strikers was being waged in the county courts.

A rumor that bundles of blazing waste had been thrown over the walls in an endeavor to set fire to buildings occasioned excitement in McKees Rocks, but deputies and company officials deny the truth of the report.

NOT MISSING ARCHDUKE

Says Official Statement in Regard to the Painsville (O.) Machinist.

Cleveland, Aug. 21.—John Salvatore, the Painsville machinist, is not the missing archduke John Orth of Austria, according to an official statement issued from the office of Baron Paul Forster, the local vice consul of the Austro-Hungarian government here.

The statement says in part: "The Austro-Hungarian government has absolute and convincing proof that the claim of John Salvatore of Painsville to be the late archduke is false and untrue and the house ought to be warned not to give any credence to those false statements for whatever motives or under whatever delusions they may be made."

Salvatore, however, still insists that he is the archduke.

He has accepted employment on a newspaper here to write a series of stories of Austrian court life.

DEPEND ON MAHON

Hoped That Street Car Men's President Will Straighten Difficulty.

Chicago, Aug. 21.—William D. Mahon, president of the International Street Car Men's union, who is expected to arrive today to take charge of the threatening street car situation, is depended on by union leaders and by owners of the street railway companies to bring permanent peace to the disputants. The companies are determined to make no further concessions.

Before a strike is called formally, Mahon, under the constitution of his organization, must first attempt to settle the questions in dispute and then, failing this, he must call on the general executive board of the organization and get a majority of the members to sanction a strike. "The local union leaders feel that, although the situation is serious, it will end in an amicable settlement."

ACCEPTS INVITATION

President Taft Will Visit Mexican Territory to Greet Diaz.

Beverly, Mass., Aug. 21.—President Taft has accepted an invitation to visit Mexican territory on Oct. 10 next when he will exchange visits with President Diaz of Mexico at El Paso and Ciudad Juarez. Senator Don Francisco Leon de la Barra, the Mexican ambassador, personally conveyed a message from President Diaz to President Taft.

Incidentally the ambassador briefly discussed with the American chief magistrate the situation in Central America, where it is reported that there is considerable unrest over the report that the United States and Mexico, acting in common, may exert a still stronger influence for the settlement of the constantly arising difficulties among the little republics by amicable means and thus put an end to frequent wars and revolutions.

Girard (O.) Strike Ended.

Girard, O., Aug. 21.—The strike in the steel department of the A. M. Byers mill is ended. All of the old mill will resume work on Monday. The company will pay the same scale of wages, but will not recognize the Amalgamated association.

How many times a day do you commend? How many times during a day do you find fault?—Acheson Globe.

LEAGUE TEAMS IDLE YESTERDAY.

Rain Stopped Contests on
Uniontown and Fairmont
Diamonds.

COCKERS GET ANOTHER REST

Present Series With Uniontown Ends

Uniontown	6	4	0	.600
Fairmont	4	4	0	.500
Grafton	0	0	0	—
Disbanded Teams	0	0	0	—
Lost	21	25	20	0

Summary.

Club	W.	L.	T.	Pct.
Uniontown	20	17	1	.543
Grafton	20	20	0	.500
Conneltsville	19	21	0	.475
Fairmont	18	25	0	.420
Disbanded Teams	1	0	0	.330

Rain interfered with yesterday's double header at Uniontown and also caused the Grafton-Fairmont game to be called off. The present series with Uniontown ends here this afternoon. Next week the West Virginia teams come to the coke region, Fairmont playing here the first three days and followed by Grafton the latter half of the week.

There is hard work out for the Cokers, who have a fight to gain second place. Grafton opens at Uniontown and the Engineers have always been fairly successful against the Cokers. "There may be a pretty payment race, yet as Grafton has not given up hopes of landing the ribbon and will put up a determined fight against Uniontown as well as Conneltsville.

Young Society Woman Drowns.
Wildwood, N. J., Aug. 21.—In sight of a party of friends and relatives who were powerless to aid them, W. Brooke Lessig, a well known Philadelphia attorney, and Miss Virginia Paul, a prominent young society woman of Swarthmore, Pa., were drowned in the surf at Wildwood crest.

Are You Oxfords Nearly Worn Out?

Our New Stock of Fall and Winter Shoes Are on the Shelves.

EARLY? Yes, much earlier than the majority of stores show them but we aim always to be the first to show the new things. Every new toe, every new leather and every new last is shown here. Winter tans, heavy dull leathers and patent leathers on newest lasts.

We have eliminated all advertised lines from our stocks. It is the outcome of a rigid investigation and comparison of all advertised lines as compared with shoes which we could have made for us. Every shoe we present this Fall is from 50c to \$1.00 better than the shoes that are given national magazine publicity. We'll show you the advertised shoe at a price and then Wright-Metzler Shoes at a like price. It will take you just one minute to realize the betterness of our shoes. It is a radical step for us to take but it is backed by good sound business judgment. We want to sell the best shoes in Conneltsville and this is the only way to accomplish it.

WOMEN'S SHOES ARE PRICED FROM \$1.50 to \$4.00

MEN'S SHOES ARE PRICED FROM \$2.00 to \$5.00

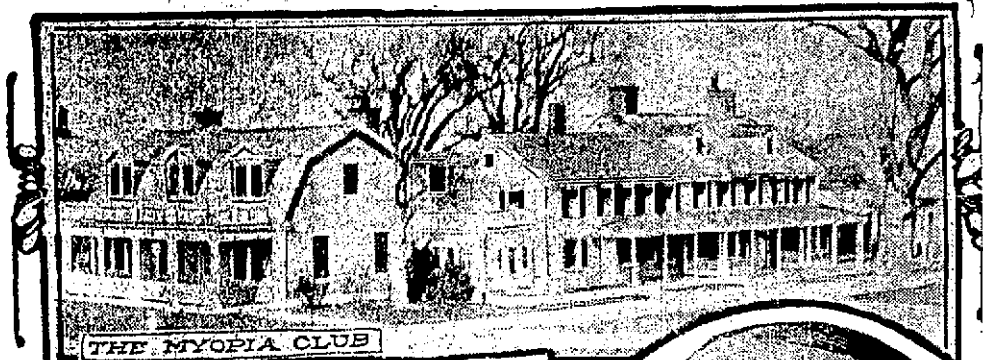

WRIGHT-METZLER CO.

The United States Government Gives Railway Mail Clerks \$800 a Year to Start, and Increases to \$1,200.

Uncle Sam will hold an examination for Postal Clerks and Letter Carriers in Conneltsville in November, and for other government positions on different dates. Over 4,200 appointments were made last year, and it is estimated that 50,000 will be made this year. Any ambitious man or woman over 18 years, with an ordinary education, can readily pass. The government wants people with common sense to take the examination, and will pay them well and give them an annual vacation with full pay. No matter where you live, city or country, you can get one of these positions. The Government Positions Bureau of Rochester, N. Y., with its thorough knowledge of the requirements of the examinations, can fit any one in a few weeks to pass.

A Government Position means employment for life. Now is the time to prepare for the coming examination. Any reader of The Courier can get full information free of charge by writing to the Government Positions Bureau, 217 Hamilton Building, Rochester, N. Y.
